

Team Collaboration in Real-Time

Genasys Protect CONNECT, formerly Evertel, streamlines communication to save time and keep you and your team informed & productive. In a profession where time is often crucial, CONNECT allows you to collaborate and share intel in a secure, organized space with all text, videos, images, and audio available to everyone 365/24/7.

- Intel & info is distributed directly and instantly to your phone, MDT, and desktop.
- No SPAM, no junk, no ads.
- No longer rely on emails or face-to-face briefings.

Compliance Protection for Your Career - Avoid Legal Problems

Using SMS texting and public messaging apps, like WhatsApp, Slack, or Teams, for work-related communication can get you and your agency in a tangled legal mess and even risk your career. Avoid this by using a communication app like CONNECT that is compliant with all federal and state-level legal requirements for public safety communication.

Legal Compliance

Public safety employees have specific laws and regulations they must follow regarding digital communication. CONNECT meets all compliance requirements with federal (FOIA), state-level public information request laws, and CJIS.

Military Grade Encryption

Your data is protected and secured through high-level data encryption within a secure, U.S.-based, government-only cloud environment. You can securely share intel, images, videos, and audio without the risk of it being intercepted like when using SMS texting or public messaging apps.

Secure & Retrievable

Don't lose the use of your phone - CONNECT is encrypted and cloud-based so all data is retrievable. If information is subpoenaed for an investigation, it's available without relinquishing your device.

One-on-One Conversations

CONNECT is not just for team collaboration. Connect with individuals or small group conversations within your agency or other cooperating agencies from law enforcement, fire, healthcare, and more. Unlike texting or messaging with a public app, CONNECT's direct messages are within a secure and compliant environment.

Efficiency

Share information and communicate with reduced distractions. CONNECT provides a focused environment and reduces the need for communicating through **email, radio communications, or multiple chats/texts on various apps**. All non-emergency communication can be moved to a room within CONNECT — keeping the radio clear for necessary traffic.

With CONNECT, all important communication is delivered in a single place, allowing you to focus on the job at hand. **Save time** on duty by sharing sensitive information that expedites investigations in a safe and legal manner.
