# genasys

Genasys Protect CONNECT

Secure, Reliable, Compliant Cross-Agency Communication and Collaboration.

Genasys Protect CONNECT provides **secure, real-time communication** and **collaboration**, addressing the strictest requirements for emergency services, hospitals, and secure business communications. With security at its core, CONNECT ensures the **integrity and reliability** of every message, offering a robust platform for both internal and external communication and collaboration.

Daily Stakeholder Communication

Unify your organisation and facilitate smooth collaboration with external organisations through real-time communication.

Quick Decision-Making

Enable rapid collaboration, allowing personnel to exchange information, make critical decisions, and respond to events quickly.
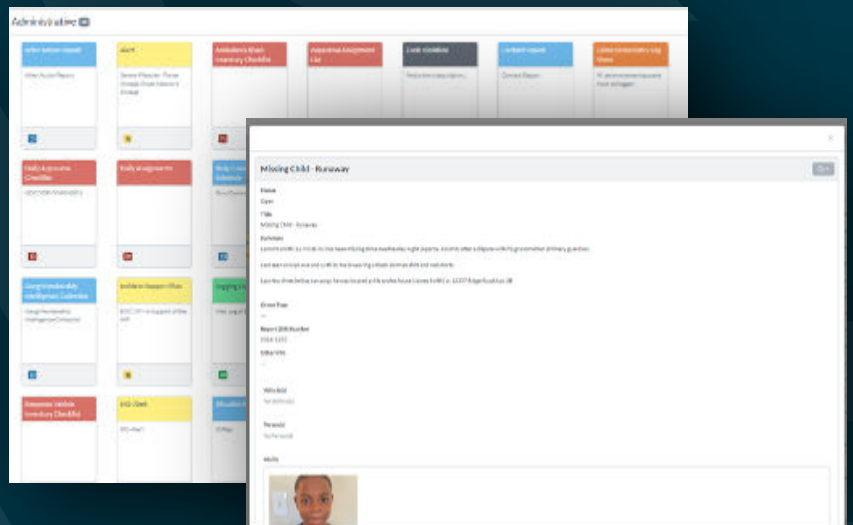

Crisis Ready

Enable key stakeholders to prepare quickly for any crisis through instant communication and a direct connection to law enforcement 24/7.

Full Compliance

Meet DPA, GDPR, FOIA, CIPA, and record retention requirements so your agencies and personnel can communicate with confidence.

EverDocs

EverDocs part of Connect, enables any agency or user to create a virtual document for any incident or day to day operation and share it securely. Any changes or edits to a document alerts any user possessing the document. Documents templates can be created for any purposes required and stored in a template library, examples can be Missing Persons, Vehicles check lists etc.

GENASYS.COM

Genasys Protect CONNECT for Compliant Protective Communications

Communicate and collaborate in **real-time** both internally and across multiple organisations with **fully compliant secure messaging**. Retain original messages and files in secure storage, ensuring that all communications are archived automatically for future retrieval and reference. Genasys Protect CONNECT is a highly intuitive and user-friendly solution that can **seamlessly integrate** with existing systems, to avoid disrupting established operational processes. Speed up operations by streamlining collaboration both internally and with partner organisations through secure cloud-based messaging.

Police
Establish true interoperability with instant intelligence sharing and organised chatrooms

Fire & Rescue
Coordinate your efforts and get all of the information you need—before you're on scene

Paramedics
Address crisis events faster than ever with a stronger communications network

Local Authorities
Stay informed with immediate updates from your public safety agencies and first responders

Partner Agencies
Communicate instantly across agencies, both for crisis response and day-to-day collaboration

The Genasys Protect Difference:

» Seamlessly connect and collaborate with other agencies, hospitals, and businesses with no silos or across agency barriers at no additional cost

» Fast messaging with individuals and across organised groups and teams of individuals from multiple organisations and agencies

» Prioritise data security, allowing for safe exchanges of sensitive information

» Compliant record retention policies for audits, accountability and confidence
