

Genasys for Manufacturing

Keep people safe and production lines running smoothly

Genasys Protect enables **rapid notification** to employees, contractors, suppliers, and everyone onsite, for both critical alerts and day-to-day communications offering a competitive edge in the world of manufacturing. **Be ready to minimize** the impact of production line disruptions and unexpected events with a tailored communications hub. In situations affecting machinery, infrastructure, the supply chain, the event to notifying those affected.

Targeted and Universal Messaging

Send notifications to individuals, groups, or targeted areas in different facilities. Use Wi-Fi auto-discovery to target areas or broadcast to everyone in the system during emergencies.

Facility-Wide Acoustic Alerts

Use Genasys Protect ACOUSTICS to broadcast live or pre-recorded voice messages over loud background noise and into buildings to notify and instruct across your facilities through failsafe audible messaging.

Employee Communications

Broadcast safety instructions through multiple channels including SMS, email, and digital signage. Use direct, real-time chat with individuals or teams for day-to-day communications.

Intelligent Zones

Intelligent zones map out your facilities to easily target buildings, critical infrastructure, and sectors both onshore and offshore. Build, edit, and act upon an intuitive map to enhance decision making.

Infrastructure Failure Alerts

Integrate external sensors to send alerts automatically when dangerous readings are detected. Set these alerts to broadcast to repair teams, people in nearby surroundings, or everyone within your facilities.

Mapping and Visualization

Eliminate confusion and enhance coordination by providing stakeholders access to a map displaying areas impacted by emergencies or other disruptions in real-time.

Public Safety Awareness

Emergencies potentially endangering people, including fires and hazardous materials incidents, require rapid communication to impacted customers, visitors, and first responders.

Employee Management

Facilitate employee management with personnel recall and automated shift assignment to reduce the necessary workload needed to keep the supply line operational.

Genasys: The Communications Solution for Manufacturing

Foster seamless collaboration across various divisions, buildings, and remote manufacturing sites. Accelerate responses to critical incidents and operational challenges. Safeguard key manufacturing facilities, operational zones, and personnel through targeted multi-channel communications that broadcast vital alerts and safety instructions swiftly and efficiently.

Genasys Protect:

- » Reach everyone you need to through targeted, multi-channel, mass notification
- » Communicate quickly through Quick Launch templates and automated alerts triggered by sensors
- » Send instant automated alerts for infrastructure and machinery failures triggered by integrated sensors
- » Integrate databases to maintain updated contact details for all communications
- » Target communication across large complexes and facilities with precise communication zones
- » Establish a direct connection in planning and responding to emergencies with public safety professionals
- » Provide constant situational awareness for employees, customers and visitors
- » Improve planning and reaction times through crisis, evacuation or lockdown simulations

Genasys Acoustics:

- » Broadcast clear and intelligible alerts across long distances, over loud background noise and into buildings
- » Broadcast pre-recorded and live voice messages to reach employees and visitors across large campuses, multiple buildings, or facilities

Genasys Evertel:

- » Communicate with individuals, teams, departments, or your entire organization sharing information, documents, multi-media, and working files through a real-time chat
- » Maintain compliance with the strictest security requirements and regulations
- » Collaborate internally, across regions, and with external organizations

Genasys: Global Provider of Protective Communications Solutions

Protecting people and saving lives for over 40 years, Genasys covers more than 155 million people in all 50 states and in over 100 countries.
