GENASYS PROTECT MOBILE APP

BE INFORMED AND READ WHEN IT MATTERS.

Genasys Protect is your key for safety during emergencies, wherever you are. Receive official updates directly from emergency leaders, get safety information and instructions, right in the app. Keep track of critical information or updates sent from trusted sources. Additionally, you can choose to activate location services to receive alerts and safety instructions when you enter an area that is under threat. You can even follow multiple locations for updates on places that matter to them, and you can also see real-time zone status at https://protect.genasys.com.

Why the Genasys Protect App:
Trusted Real-Time Updates:

Receive immediate alerts to stay informed about evolving emergencies, from trusted officials.

Privacy:
Privacy is important. Alerts are based on neighborhood or zone-based data. Private data is not shared with any third party.

Live Evacuation Updates:
Track current zone status, emergency updates and more, using the interactive map.

Display Safe Spaces:
Quickly locate evacuation centers, shelters, resource centers, and animal shelters in the vicinity.

Point-of-Interest Notifications:
Minimize nuisance notifications meant for far-away locations so you only receive emergency alerts specific to your area.
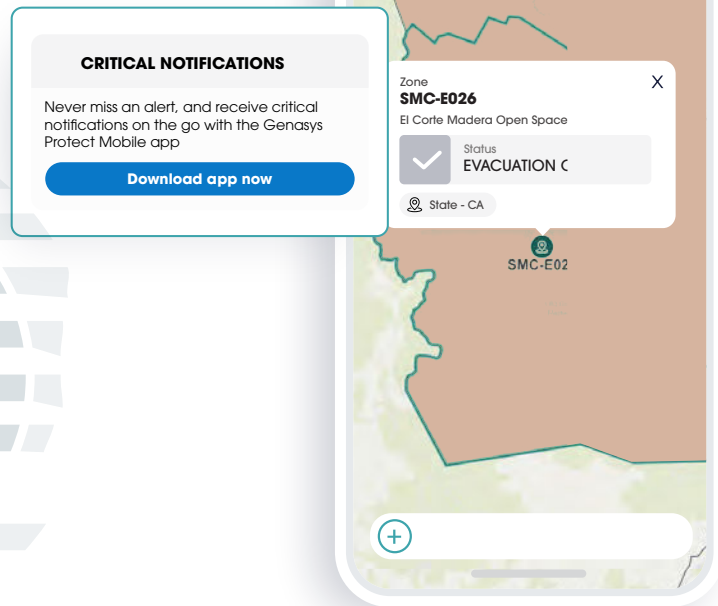

Alerts On the Move:
Enable location-sharing to receive alerts based on current location, increasing awareness of emergencies both at home and on-the-go.

Information Without Delay:
Get updates in an emergency quickly. With the app, users add an address or point of interest, and stay updated with actionable communication.

CRITICAL NOTIFICATIONS

Never miss an alert, and receive critical notifications on the go with the Genasys Protect Mobile app

Download app now

Follow multiple locations in the mobile app or view statuses live on https://protect.genasys.com

Privacy Matters:

Rest assured, Genasys Protect prioritizes the privacy of users. Specific addresses are not tracked. Instead, we notify based on neighborhood areas or specific zones to ensure users receive crucial alerts without compromising privacy. Only authorized officials can send alerts, minimizing nuisance alerts and ensuring users are informed precisely when it matters most. Genasys does not upload nor store personally identifiable information.

How to Get Started:

Download the mobile app to see how easy it is to stay informed. To see how it works, simply enter an address or drop a pin at a nearby location to receive public safety alerts.
