On behalf of the Soldiers of the Colorado Army National Guard, you have my heartfelt gratitude for your contribution in the rescue of over 3,400 Coloradans during the worst flooding in our state's history.

Your generosity in lending several sets of the Long Range Acoustical Device to our forces has not gone unnoticed. The LRAD capability has helped to ensure the safety of not only Colorado's citizens but also its Citizen-Soldiers. The LRAD has performed superbly and has served to enhance our security as well as our search and rescue missions.

You can and should be justifiably proud of your solid accomplishments in technology and production of top notch equipment. Your innovation has aided, and continues to abet, the nation's greatest Soldiers serving the citizens of Colorado in a time of their great need – well done!

Sincerely,
