genasys

Genasys for Law Enforcement

React quickly to crime, collaborate across agencies, and direct the public

Genasys Protect provides fast, precisely targeted communications, **secure and compliant collaboration**, and emergency management capabilities that **greatly speed up response** to unpredictable crime, civil unrest and other public emergencies. Accelerate the flow of information internally and across multiple agencies for enhanced collaborative workflows **that keep people and communities protected**. Direct and inform the public during critical events, active shooter incidents, civil unrest, community safety initiatives and more.

Secure Communications

Access a secure space where professionals quickly form ad-hoc groups to support one-off incidents. Communicate in a compliant environment, adhering to the strictest security and safety regulations.

Direct the Public During Civil Unrest

Use Long Range Acoustic Devices (LRADs) that can broadcast live or pre-recorded voice messages over loud background noise and into buildings to direct the public during civil unrest.

Cross-Agency Collaboration

Establish a map-based common operating picture and two-way real-time chat rooms to communicate, coordinate, and collaborate from a virtual EOC.

Targeted Multi-Channel Alerting

Send alerts to individuals, groups, or everyone in a geographic area through multiple channels including SMS, CBC, Genasys ACOUSTICS, social media, voice calls, TV, radio, digital signage, and more.

Incident Reporting and Documentation

Streamline incident reporting and documentation processes. Meet HIPAA, CJIS, and record retention requirements.

Map-Based Information

Facilitate and improve decision making through intuitive, real-time, map-based situational awareness. Map crime data to visualize hotspots and effectively deploy resources.

Community Engagement

Extend selective information from your operations map to an intuitive webpage and mobile app to inform and direct the public before, during, and after an emergency.

Convenient Mobile App

Empower citizens with an additional reliable communications channel that provides deeper knowledge, a panic button, and access to an informative map. Download the mobile app.

"When you're on Genasys Protect CONNECT, you're able to push out updates in real time. To me, that is the value proposition and is worth its weight in gold. It's very cost effective for our team and city.

We're able to integrate federal, county and local assets and resources and get everybody in the same room, discuss what's important, and make decisions that commanders can rely on." - **Christopher Cook, Police Chief, White Settlement, TX**
