

## GENASYS EVERTEL:

# ENHANCE LAW ENFORCEMENT OPERATIONAL EFFICIENCY AND READINESS

Communication within Law Enforcement is often a complex, constant challenge. It not only hampers internal efficiency but also complicates interagency collaboration. Genasys Evertel, part of the Protect platform, solves these challenges as a messaging app that delivers compliant, critical communications tailored to law enforcement's unique requirements.

With Evertel, your team is assured the seamless modernization necessary for effective policing practices across different locations, agencies, and equipment, thereby addressing ongoing communication challenges effectively.

Did you know that only **21%** of Law Enforcement Officers read their emails within 4 calendar days?

With **Genasys Evertel** nearly **90%** of personnel read messages in just 24HRS

## Genasys Evertel Provides Streamlined Effectiveness for Today's Law Enforcement Agencies

### Facilitate Reliable Communications

Evertel enables secure, real-time messaging for instant sharing of critical information across teams and agencies. Encrypted communications, including messaging, media, and file sharing, means greatly improved efficiency while also maintaining records within your agency's retention policies. Ensure your personnel can communicate securely and efficiently, boosting operational readiness 24/7.

### Increase Situational Awareness

Real-time updates, event plans, and live intelligence sharing help officers make faster, better decisions in record time. Evertel supports instant messaging, multimedia sharing, and critical alerts, all of which are vital in emergencies where every second counts. Evertel enhances responsiveness with communication from the top down, ensuring your team stays connected, informed, and efficient.

### Coordinate Efforts

From the Emergency Operations Center (EOC) to the frontline, Evertel facilitates efficient coordination by organizing personnel into specialized chat groups. This allows critical information such as IAP's, Ops Plans, and other critical intelligence to flow seamlessly from command staff to those in need. You decide who collaborates via guest invitations, e.g., detectives, SWAT, patrol, crime analysts, or external partners. The right information gets to the right people, improving effectiveness and readiness across the board.

## **Consolidate Programs**

Genasys Evertel is a comprehensive solution that can replace multiple platforms at once. Evertel covers everything from internal activations to external collaboration to case file sharing. With startup in minutes, Evertel can lead to significant cost savings while streamlining your agency's operations and overall efficiency.

## **24/7 Accessibility**

Supporting law enforcement's 24/7/365 mission, Evertel ensures your team stays connected no matter the time or location. Evertel works on all existing equipment ranging from Mobile Phones to MDT's, ensuring constant preparedness and operational continuity.

## **State and Federal Compliance**

Evertel maintains compliance with CJIS, HIPAA, and FOIA so that all communications can be tracked, and evidence can be provided at the prosecutorial level when requested.

## **Enhance Safety**

Evertel's cloud-based, encrypted communication platform ensures sensitive data is protected, minimizing the risk of security breaches. It operates independently from city-controlled systems, reducing vulnerability to cyberattacks, system outages, or other operational disruptions, while enhancing overall efficiency.
