

Stadium & Event Safety & Security

Genasys Protect

*For Event Emergencies, Day-to-Day Communication
and Organisational Collaboration*

Genasys Protect enables accelerated communications, operational efficiencies, and attendee awareness to keep people safe. Accelerate crisis response operations for emergency services with Genasys Protect. Maximize operational communications for game day services, event updates, and important reminders to both staff and general public.

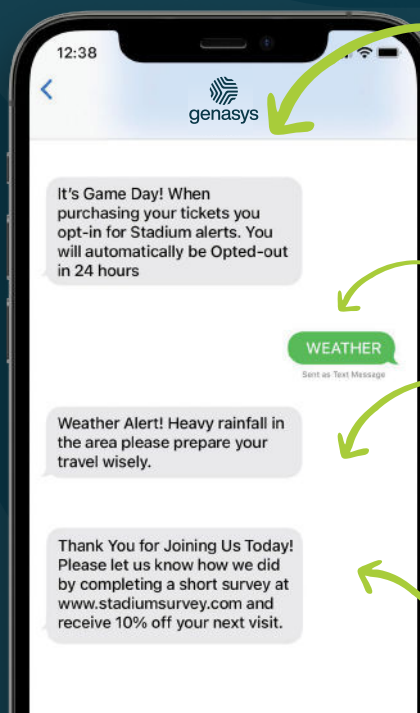

Streamline event operations with inter-department and cross functional collaboration inside and outside your organisation. Enable key staff to communicate and collaborate in real time. Create just in time operational chat rooms within seconds, supporting both day-to-day communications and immediate incident responses. Sync with public safety and communicate securely with attendees to efficiently distribute information.

Improve Communication Accuracy During an Incident

Genasys Protect provides timely and relevant alerts & information to your fans, security and staff in any critical event to virtually any device.

Integrate 3rd party sensor data, surveillance technology, Wi-fi auto discovery feature and operations team to provide a solution that offers end to end communication and collaboration. Safety instructions can be broadcasted through multiple channels including, digital signage, SMS messaging, email, mobile app, and websites. Send targeted communication to an individual or broadcast mass notification to a larger population- scale safety and security operations.

Enhance your communications with Genasys Acoustics, to broadcast clear and intelligible alerts across long distances, over loud background noise, into buildings, and across stadiums. Distribute pre-recorded and live voice messages with information and instructions for anyone in attendance. Reach attendees, staff, and participants with critical messages, even when not near devices

TO THE POINT

Provide clear and concise subscription details in a customised greeting that explains the alerts users will receive

USER FRIENDLY

Increase subscribers with customisable short and easy keyword opt-in by SMS text.

FLEXIBLE ALERTS

Deliver critical incident and emergency alerts to the mobile phones of only subscribers in affected areas

CUSTOMISABLE KEYWORD

Use short-term keywords for stadium emergencies or on-going events with an end-date, and long-term keywords for active subscription groups.
