Genasys for Civil Unrest

Protect your community by promoting peaceful resolutions and mitigating property damage.

Keep all stakeholders informed, achieve peaceful resolutions, mitigate property damage, and deescalate potentially violent situations during civil unrest with Genasys Protect. Establish a secure collaborative space to maintain tight coordination among multiple agencies and engage with advisors and leaders for effective decision-making and establish clear communication with large crowds to promote orderly conduct with Genasys Protect and LRAD.

SECURE COORDINATION

Establish secure encrypted communication internally and across agencies within seconds. Share critical intelligence, updates, and resource deployments with leadership and officers.

LONG RANGE ACOUSTIC DEVICES (LRAD)

Broadcast clear intelligible voice commands and information across long distances that can be heard over a loud crowd and within buildings or vehicles.

TARGETED COMMUNICATIONS

Precise-zone based communications help to reach the public, even if they have not opted-in. Ensure the safety of residents, peaceful protestors, and bystanders.

ACTIONABLE INFORMATION

Provide the public with updated information via a mobile app and website to effectively manage both potential evacuation and repopulation efforts.

"With the use of your LRAD device, we were able to provide the crowd with clear and audible announcements on an unlawful assembly, orders of dispersal, and direction of travel. Your device provided us the ability to make clear and understandable announcements to all areas of the assembled crowd thus fulfilling our legal requirements prior to enforcement action. Your device's ability to project the sound from a distance also provided our operators with a margin of safety not available from other crowd communication devices." **Lt. Christian Sharp, SDPD Northeastern Division**

The Communications Solution for Law Enforcement

Maintain control during tense and potentially violent confrontations with large crowds through enhanced communication. Promote peaceful resolutions from a safe distance by using LRADs to broadcast clear voice commands that everyone can hear above loud crowd noise. Keep your community safe and promote peaceful resolutions to conflict with Genasys Protect.
