

## For Criminal Investigations Divisions

Investigators depend on speed, accuracy, and defensible records. Yet many investigations still rely on fragmented email chains, text messages, non-compliant apps, and parallel spreadsheets just to keep cases organized. Information lives in silos. Intel sharing gets delayed. Exporting of records and all evidentiary items is manual and time consuming. Critical details are scattered instead of existing in one operational picture investigators can trust.

Genasys Evertel is a secure, CJIS-compliant communication and collaboration platform built for law enforcement. Empower your CID with centralized case communication, evidentiary integrity protection, and real-time coordination across agencies.

### Why Evertel?

-  **Case-Specific Chat Rooms:** Launch secure rooms for individual investigations so updates, warrants, and follow-ups stay organized and controlled.
-  **Mobility & Flexibility:** Access securely from desktop, tablet, or mobile device to stay connected in the field.
-  **Seamless Collaboration:** Instantly invite local, state, federal, or external partners without being forced into separate systems or unsecured workarounds.
-  **Critical Alerts:** Immediately notify team members during active incidents. Alerts override silent and Do Not Disturb modes on devices.
-  **Secure Case Protection:** End-to-end, military-grade encryption, with screenshot detection and blocking to prevent leaks, protect informants, and safeguard sensitive intelligence.
-  **Prosecutor-Ready Exports:** Generate complete, court-admissible chat transcripts in seconds - organized, time-stamped, and ready for the DA.
-  **Regulatory Compliance:** Maintain CJIS, HIPAA, FOIA compliance with timestamped, exportable records for evidentiary submissions and transparency requirements.
-  **Real-Time Intelligence Sharing:** Eliminate delays from RTCCs and Fusion Centers with instant updates across teams.
-  **Message Archive & Global Search:** Retrieve past communications in seconds to support reporting, case review, or courtroom preparation.
-  **Close Cases Faster:** instantly share critical information, streamline workflows, and reduce delays, so investigations move forward without bottlenecks and cases get resolved sooner.

It's been a saving grace during operations, ensuring everyone is on the same page and has the same information. It also allows me to push out information, images, and videos to a large group (boots on the ground) during evolving/fluid police incidents. The ability to invite guests is a huge plus during incidents or operations that involve allied agencies."

- CIU Analyst Kelly Castle,  
St Mary's County SO (MD)
