

Benefits for Users

Evertel: Secure & Instant Mission Ready Communication

In public safety, speed and clarity are everything. Stop chasing information buried across inboxes and different channels. Evertel connects your entire team inside a secure communication platform built for the way you actually work 365/24/7.

Real-Time Team Collaboration

Stop chasing information buried within an inbox. Start operating as one unit.

Send critical intelligence instantly to smartphones, MDTs, and desktops

Start one-on-one, small group, or agency-wide conversations as needed

Share and search text, files, links, images, video, and audio for investigations, public records requests, or subpoenas

Coordinate across teams, departments, and jurisdictions in real time

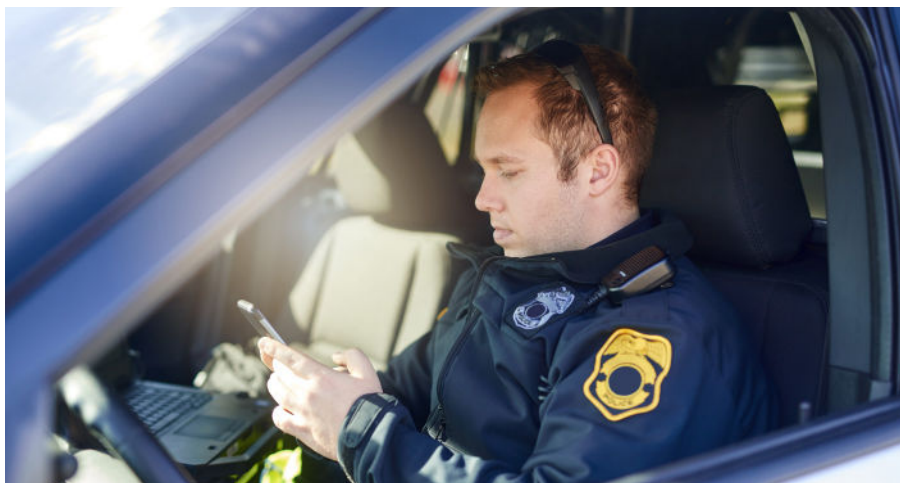

Stay Compliant: Protect sensitive information & your career

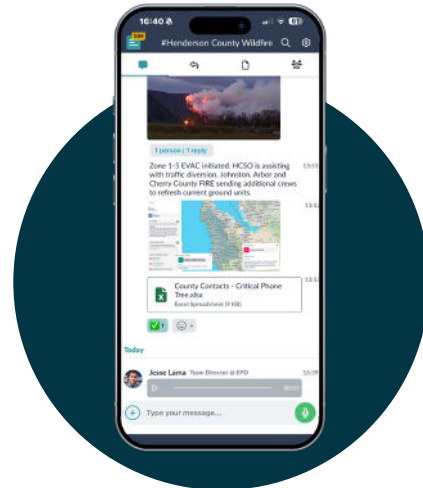

Your device should never become a liability. Using SMS or apps like Signal, WhatsApp, Slack, or even Microsoft Teams for official communication creates real legal exposure, for both you and your agency.

Evertel eliminates these risks:

- Fully compliant with CJIS, FOIA, HIPAA, and state public records laws
- Military-grade, end-to-end FIPS encryption for sensitive information sharing
- Secure U.S.-based, government-only cloud storage
- No need to surrender your device, with no agency data stored locally to it
- User-based access controls and anti-screenshot protection
- Secure cloud-based storage ensures nothing is lost

Smarter Policing At Your Fingertips.

Evertel: Total control from one platform

Evertel brings every critical conversation into a single, secure space, so you can move faster, work smarter, and protect what matters most.

Fast Intel Sharing

- Make more timely arrests by helping officers identify suspects, vehicles, and locations sooner
- Get BOLOs, photos, videos, and intel to the right people faster
- Act on leads before they go cold

Legal Protection

- Reduce risk during complaints, subpoenas, and records requests
- Show what was sent, received, and acted on
- Keep official communication off personal texts and consumer apps

Officer Safety

- Reduce missed updates that could put officers at risk
- Share suspect, hazard, and location updates in real time
- Keep units aligned during fast-moving incidents

Operational Efficiency

- No more wasting time digging through email threads, texts, and scattered apps
- Find messages, files, photos, and videos quickly
- Cut unnecessary calls, radio chatter, texts, and follow-ups

Within Evertel, we are now sharing real time videos, photos and information on a multi-agency platform which is allowing for responding Law Enforcement to make better informed decision-making as the incident unfolds"

- Sergeant, Dutchess County Sheriff's Office (NY)
