

Genasys™ Non-Profit

Critical Communications & Enterprise Safety

Keep your workers, volunteers, staff and visitors safe. Notify everyone based on their location, assignment, building or region: full situational awareness and complete accountability when you need it.

Multilingual Alerts

Multilingual alerts to your diverse workforce anywhere in the world: automatic translations and localization into any language. Deliver your alerts worldwide over SMS, email, push, voice calls, social media and website postings.

Duress Buttons: Hardwired and Mobile

Duress buttons and reporting from the field for your staff and volunteers working and traveling alone. Instantly know the full profile and location when alerts go off. Direct your rescue efforts and alert everyone else in the vicinity through a unified dashboard and real-time mapping.

Tasks

Assign tasks and monitor real-time progress with alerts about anything that goes beyond assigned parameters.

SMS

Handle seasonal volunteers with ease: easy SMS keyword opt-in and automatic opt-out for handling your seasonal workforce shifts.
